AB - J05146370 Chopping board has uncoloured synthetic resin layer contg.
antibiotics on the upper surface with a coloured layer formed below it.

- The synthetic resin includes polyethylene, etc. and the antibiotic agent includes silver ion, zeolite, thiabendazole, etc.. The coloured layer is polyethylene or other synthetic resin coloured yellow. In the present chopping board, core material such as FRP, etc. is also used.
- USE/ADVANTAGE - The board shows antibiotic activity, and colour change by the antibiotic agent after use can be masked.(Dwg.0/0)

AW - SILVER ZEOLITE THIA BENZAZOLE

AKW - SILVER ZEOLITE THIA BENZAZOLE
